MISSION STATEMENT

We are committed to supplying value to our customers, through the provision of acceptable, consistent quality products, delivered on-time, that exceed our customer's expectations. We wish our customers to view RTS as a responsive, innovative, and dependable supplier.

PROFILE

RTS polyethylene tanks are manufactured in Ontario to strict ISO 9001:2015 quality guidelines to ensure years of customer satisfaction. Impact resistant, non-corrosive, one-piece seamless linear polyethylene construction allows RTS tanks to be used for the storage of most liquid fertilizers, herbicides, insecticides and fungicides, as well as a wide range of industrial chemicals. RTS tanks are manufactured using food grade approved resin to ensure safe storage of potable water.

With 30 years of rotational molding experience, and computer directed roto molding machines, RTS is able to combine quality products and competitive prices to meet the challenges facing agricultural markets.

VERTICAL CLOSED TOP TANKS

rtsplastics.com

RTS Vertical Storage Tanks

RTS Vertical Storage Tanks (VST) are manufactured using FDA natural white resin and are suitable for potable water.

PU - Denotes tank is a pick-up truck model as well as a vertical storage tank (no cut-outs for wheel wells)

VST 25 - 105 - Complete with 6" screw cap/gasket, calibration (L/USG) and a 1-1" bulkhead connection

VST 150 - 1775 - Complete with 16" manway, calibrations (L/IMP/USG) and a 1-2" bulkhead connection/siphon

VST 2000 - 2500 - Complete with 18" manway, calibrations (L/IMP/USG) and a 1-3" bulkhead connection/siphon

Additional information and tank spec sheets can be found at rtsplastics.com

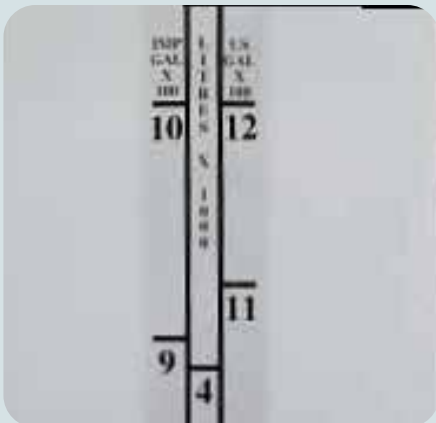

Available in Natural, Blue or Black

Suitable for farm, greenhouse or other outdoor applications.

Standard AGRI-TANK Features

Standard features include:

- deep tie-down lugs
- drain / siphon
- vented manway or
- screw cap with gasket

Calibration
(on most models)

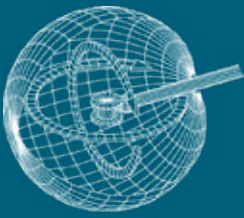

Tie-Down Lugs

2" Bulkhead / Siphon

16" Manway

DISPENSING TANKS

1865-13070A-00-00	DSPT-175 IG	175	210	790	33" x 95.5"

Dispensing Tank dimensions include tank and stand.

DSPT - Complete with 1" welded boss and 6" Cap with EPDM Gasket

RTS Dispensing Tank Stands

RTS PRODUCT #	RTS MODEL #	DIMENSIONS <i>d x h</i>
1850-02401T-80-00	24" DSPT Stand	26.5" x 21"
1850-03001T-80-00	30" DSPT Stand	33" x 21"

Additional information and tank spec sheets can be found at rtsplastics.com

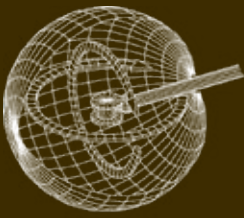

Standard Dispensing Tank Features

RTS Dispensing Tanks are UV stabilized for long-term outdoor use and are perfect for storing non-corrosive and food grade liquids.

Stands Available in Blue or Black

Suitable for farm, greenhouse or other outdoor applications.

HORIZONTAL TANKS

rtsplastics.com

RTS Horizontal Tanks

RTS Plastics' Horizontal Tanks are rotationally molded in one piece using High-Density Polyethylene (HDPE) and come in a variety of sizes and capacities. Low profile design makes these tanks suitable for safely storing and transporting liquids with a specific gravity higher than 1.0.
